

Nebraska Library Codes

In many FirstSearch databases, including WorldCat, you can limit your search to items owned by a specific library. In order to do this the library of interest must have added its holdings to WorldCat, and you must know the library's OCLC-assigned Library Code. Once you know the code, you can enter it in the Library Code Box on the FirstSearch Advanced or Expert search screen. You may also search by owning library by entering the field label **li:** followed by a Library Code in one of the general Search for: boxes (e.g., li:nfr). When using this construction you can string multiple libraries together using the Boolean operator OR (e.g., li:nbl OR li:nln OR li:ldl).

Below is a list of the Library Codes assigned to Nebraska libraries that **lend**. To locate Library Codes for other institutions, use the OCLC Participating Institutions search form available at oclc.org/en/contacts/libraries.html.
